

The worry-proof roof

GERARD PRODUCT CATALOGUE

ADVANTAGES

Gerard Roofing Systems are renowned worldwide, not only because the production facility in Belgium supplies over 100 countries, but also because of their exceptional durability. This roofing system is stronger than a rock, environmentally friendly, and lightweight at the same time. It enables aesthetic, smart, and economical solutions for roof pitches of 12° and above.

Extreme weather resistance against storm and high-wind

Superior corrosion resistance

UV resistance of the coating will preserve the colours and the beauty of the tile

Lightweight. Imagine only 1/7 of the weight of clay or concrete tiles! It requires only light-weight roof structure for newbuild

Ideal for reroofing. It can even be installed on existing roofs

Easy and quick installation

Attractive and stylish design with everlasting low gloss, textured coating

It can be applied on roofs with pitch as low as 12°
